

A satellite image of a hurricane, showing a clear eye and spiral cloud bands over a dark ocean surface.

# EXPO 2009 at the National Hurricane CONFERENCE

## Exhibitor Directory

31st Annual Conference  
Austin Convention Center  
Austin, Texas

Expo Dates: April 8-9

# You Know It's Coming. Are You Prepared?

**(You can be.)**

When disaster strikes, having the right debris removal contractor as your partner will make disaster recovery much easier for you and your community. With J. B. Coxwell Contracting, Inc., you'll have the strength and reliability you need at your side. With unmatched resources in people and equipment, and a fully NIMS compliant management structure, you can be sure that the job will be done right. We'll handle the documentation properly – to maximize your FEMA reimbursement – and meet your community's needs.

**When it comes, you'll be prepared  
with Coxwell at your side.**

**Call us now at 904.786.1120**

**www.atarpsolution.com**  
**Email: atarpsolution@comcast.net**  
**Booth # 509**

A Tarp Solution is a Florida-based company manufacturing its patented product, the EZ Tarp. Unlike standard tarps, the EZ Tarp has an adhesive strip around only its edges which allows it to stick to shingle, tile, metal and concrete roofs without penetrating fasteners. A 10' x 12' EZ Tarp can be installed by a single inexperienced person in about 10 minutes, helping communities recover faster! While roof tarps are our main product line, All Hazards Supply, a division of ATS, specializes in custom tailoring a variety of economical shelter kits such as Family Sized Emergency Hygiene Comfort Packs, Shelter Kits for Babies and Pets and Children's Entertainment Kits.

Storm Shield Window Security Barriers, a unique, patented system for doors & windows that has been certified by South Florida (Miami-Dade), the Florida Building Code, ASTM and the Texas Dept. of Insurance. It has been successfully tested to the essential facilities criteria of ASTM E 1996 Level "E" for areas with wind speed over 130 mph, has tested impact ratings up to Enhanced "C". (15 lbs. @ 80 ft./sec. -- 1491 ft/lbs.)

Tough perforated metal barrier system that provides the maximum protection from man-made and natural events including hurricanes, windborne debris and strong winds. The system's revolutionary concept of Invisipertm, offers a multi-performance see-thru barrier. Secondary functions are security, egress, energy efficiency, vandal and electronic espionage protection. In certain applications, it can be part of your force protection plan for blast protection. Eliminates up to 51% of solar heat gain for efficient cost savings. Exeter—The Clear Choice. Protection you can see thru.

**Booth #813**  
 The Mobile Sleeper Company has been involved in emergency operations for over 38 years. With pre-positioned units across the Southern United States we can be operational within hours. Setup time is 15 minutes as opposed to tents or containers that take upwards of days, and if the incident should require a quick take down and reposition of a camp, allow an hour to accomplish this task. We have provided base camp housing and support services for emergency workers, housing adjacent to ECC's for overflow housing, movie production companies in remote locations, and fire crews have become accustomed to a good night's sleep within our MSU. We are the only company that has a State Fire Marshall's approval for housing. As you can see, if quick, safe climate controlled deployable shelters are required, The Mobile Sleeper Company can handle your needs!

Our Universal Communications System offers the largest inbound and outbound high speed notification capacity in the industry, delivering unprecedented 1-to-1 communication during disasters. With UCS phone, fax, email or pager notification can provide information to the public or critical staff. Using the available GIS mapping feature, you can easily identify a notification area quickly providing targeted, precise alerts. UCS is the most effective method of communicating in-

formation, gathering data and activating resources available.

THE Sandbag Replacement Company.

Our Emergency Tiger Dam System is reusable and environmentally friendly and comes in any color, from army camouflage to bright emergency neon colors. Our Tiger Dam System can be made into any shape and size (18 inches - 32 feet high and can be anywhere from 50 feet to 100 miles in length). Our flood diversion Tiger dam system may be capable of diverting up to 100% of the floodwater without the use of sandbags. The system can normally be set up and dismantled, with as few as two people; within minutes, depending on the scope of the flood. Our patented Flood Control Tiger Dam System is the only thing you may need for any future flooding problems.

# EDUCATE AMERICANS. SAVE LIVES.

# ▶ INCREASE YOUR CORPORATE VISIBILITY.

[ Help save lives and minimize damage by becoming a partner in America's most recognized, comprehensive public education project reaching MILLIONS OF AMERICANS during each hurricane season. ]

**The National Hurricane Survival Initiative** offers corporate sponsors an outstanding opportunity for broad, national exposure for their leadership in helping to educate and inform millions of Americans with timely, life-saving information.

Corporate partners demonstrate national leadership while enjoying industry exclusivity. Benefits include advertising, public relations, government relations and high-profile philanthropy.

With an Emmy Award-winning television program, **The National Hurricane Survival Initiative** is a comprehensive educational campaign seeking to save lives and minimize damage in any area prone to hurricanes, from Texas to Maine.

Key roles in the project are provided by **The National Hurricane Center, FEMA, The Salvation Army and the National Emergency Management Association.**

## High-Visibility Components

- A national news conference launching the initiative.
- A national poll by Mason-Dixon Polling and Research.
- A bilingual, 30-minute television program reaching more than 55 major markets.
- Strong presence on an interactive, bilingual Web site.

"The National Hurricane Survival Initiative created millions of media impressions through television and print news stories and brought significant media attention and valuable information to our hurricane-prone communities. This initiative is a valuable resource to the National Hurricane Center and the reach of the project would not be possible without the support of the partners and sponsors -- governmental and corporate -- that are involved with this project." -- April 9, 2007

*Max Mayfield, Former Director of the National Hurricane Center and Chair of the National Hurricane Conference*
